

Regulatory Checklist - Boiler House Focus

This checklist summarizes the site regulatory codes referenced across maintenance, inspection, and incident records.

REG-014: Boiler Pressure Vessel Inspection Code

Annual inspection and certification requirements for fired pressure vessels.

REG-022: Rotating Equipment Seal Integrity Standard

Mechanical seal inspection, replacement, and failure-reporting requirements for rotating equipment.

REG-031: PPE Compliance Directive

Minimum personal protective equipment requirements for maintenance and inspection work.

OSHA-105: Lockout/Tagout Standard

Control of hazardous energy during maintenance and servicing of equipment.

REG-045: Emergency Shutdown System Testing

Periodic functional testing requirements for emergency shutdown (ESD) systems.

REG-052: Relief Valve Testing Frequency

Minimum bench-test frequency and evidence retention for pressure relief valves.
